It's getting Wild around here as we get more and more excited about the [Into the Wild Retreat!](#) I recently spent a day with Wilson "Wild Man" Alvarez as he taught a basic wilderness skills course. I've compiled a highlight reel for your enjoyment.

That's just a small taste of what Wilson will cover—there's also fire, shelter, and water, as well as much more information about our habitat, animal behavior, bird calls, and rewilding. For example, the video doesn't show the participants finding deer hair on the forest floor or following mouse tracks!

Once Wilson opens your eyes to the wonders of the natural world, you'll never see it the same again! *(and you'll realize that deer hair is actually everywhere.)*

Wilson is not the only Wild one at this retreat. Meet Erin Darby, our morning yoga instructor.

If you want more, here's a video that I created a few months ago showing the campsite and cabins. I'm trying to be very quiet in this video. :)
